

Memory Photo Pillow Crafter's Choice Photo Fabric Print, Peel and Sew or Sealah Tape

Supplies Needed

1. Package Crafters Choice Photo Fabric
2. Inkjet Printer
3. Fabric to make pillow or readymade pillow
4. 1/8" or 3/16" trim for border of photo
5. Sewing Machine
6. Sealah Tape

Follow Directions on the package for printing your photo.

You can find some great photos in the internet or use photos of family and friends. Memory Pillows are perfect for the person who has everything.

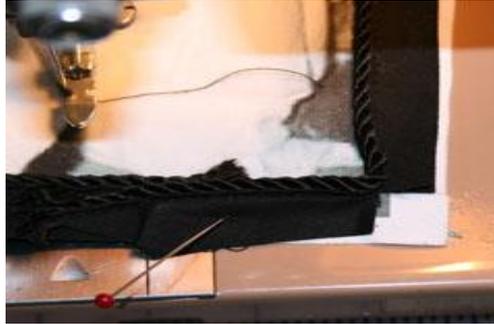

Step 1.

Stitch Decorative Trim along the outside edge of the photo with a zipper foot.

Step 2.

When sewing the cording around the photo make sure to sew straight corner.

Sew $\frac{1}{2}$ inch from edge and drop needle into fabric, lift zipper foot up and clip the trim along side of the zipper foot. Pivot to the next side of the fabric and continue sewing the trim.

Step 3 Press the photo fabric right side down and press the lip of the decorative trim towards the center of the photo.

Step 4 Center the photo on the front of the pillow, measuring all 4 sides. At this time you can sew the photo onto the front of the pillow or you can use Sealah Tape and place the tape on the back side of the photo (on the decorative cording lip) and just adhere the photo to the pillow.

If you are going to sew the photo to the pillow, you will stitch in the ditch along the inside or the trim.

Viola!

Now your pillow is ready to give away and create a special memory.

Shop for your Photo Fabric at <http://www.homefashionsu-store.com>

Photo Fabric in Pillow Category in the store.

Sealah Tape is a double sided, washable, peel and press industrial strength adhesive.
